Patient Care Pathway

Description: The CNEC Patient Care Pathway is a high school curriculum that provides a four year health careers pathway for students pursuing health related careers after graduation. Areas targeted include academic and health science elective courses.

Vision: The Patient Care Pathway is an example of a therapeutic model that contributes to meeting the health care needs of the community by preparing students for a future in health care.

Mission: To prepare students to enter the health care work force and/or post-secondary health care education while developing proficient skills essential in the industry.
