

November 2017

Dear Counselor,

Many rising sophomores, juniors, and seniors invest their summers in attending rigorous college preparation programs. When they attend summer programs at the University of Southern California (USC), high school students balance academic and college life as they prepare for college at one of the world's leading private research universities. If your students are seeking an academic challenge this summer, invite them to apply to the pre-college USC Summer Programs for high school students.

USC Summer Programs offers students a preview of "freshman year" through its college immersion experience. Students explore Los Angeles as a laboratory for cultural learning beyond the traditional classroom. Our programs are designed to combine college level course work, academic field trips, and structured extracurricular activities.

USC Summer Programs offers **4 & 2 week** courses in a variety of subjects from which students choose one course for intense study. Courses are interactive, engaging and challenging, and students receive 3 units of transferrable USC elective credit upon successful completion of the 4-Week program. Students can choose from over 20 courses in the following subject areas:

Architecture
Business
Engineering

Global Studies
Journalism
Performing Arts

Pre-Health/Science
Pre-Law
Writing

Enclosed you will find our USC Summer Programs poster. I hope you will display the poster on a bulletin board so your students can learn about USC Summer Programs. Students may visit summer.usc.edu for more information and instructions on how to apply.

Thank you for making your students aware of this valuable opportunity. If you have any questions, contact us at 213.740.5679 or summer@usc.edu. We look forward to hearing from you.

Sincerely,

V. Sonny Hayes
Director of Summer Programs

"Between the high quality of the classes, activities and other students, it was a full experience that has left a huge impression."
