

STUDENTS & PARENTS/GUARDIANS:

I hereby voluntarily participate in the 10 week M.A.P. program at Clovis North. We understand that both the student and parents are obligated to finish the program once it has started. We also understand the requirements necessary to complete the program.

We agree that this program is vital to help young men become model citizens with an elevated sense of moral integrity and the ability to be both honest and forthright in all their endeavors. We agree to abide by all rules in place from the Clovis Unified School District, and acknowledge that a student may be disciplined, or removed from the program due to a violation of these rules.

Please sign below to acknowledge that you have read and understood the policies and procedures of this program at the Clovis North Educational Center and agree to abide by them.

MEN'S ALLIANCE PROGRAM

WHAT IS MAP?

The Men's Alliance Program, or M.A.P. is a 10 week program designed to give direction to young men and create a plan, or map, to guide them toward their future goals. Participation in the program is voluntary, and each student elects to participate with the support of their parents.

Each session is geared toward a specific lesson and designed to develop a particular skill through storytelling, role playing, and group exercises.

Students learn and demonstrate impulse control and emotional self-regulation. They begin to understand how to read social cues and interpret the intentions of others. Ultimately they develop aspirations for the future and create a sense of personal responsibility and integrity.

Students meet each Monday during lunch. They cover one topic per week, creating goals and discussing life's challenges. Lunch will be provided for the first and last sessions, but for all other meetings students are encouraged to bring their own lunch.

OUR MISSION

The Men's Alliance Program creates and implements school-based programs that enable young male students to overcome obstacles, focus on their education and, ultimately, succeed in both school and life.

WHAT DO OUR STUDENTS LEARN?

TEAMWORK

LEADERSHIP SKILLS

SELF DISCIPLINE

FOCUS

SOCIAL SKILLS
