

To: 2017-2018 Advanced Math Analysis Students and their Parents/Guardians
From: Mr. Belden
Date: June 12, 2017

Welcome to Advanced Math Analysis! The goal of this course is to prepare you for calculus by focusing on advanced topics in algebra, trigonometry, and pre-calculus.

1) The summer packet can be found on the CNEC website with the other AP/Honors summer work. This packet is to be completed and handed in to Mr. Belden at the **beginning** of the first class for the fall semester. It is worth several homework assignments.

2) Be prepared on the **first day of school for a test covering the summer packet material**. No calculator or notes will be allowed for this test and it cannot be retaken.

Students that need help with their summer packet are invited to come to a study session on Thursday, August 17th from 3:30 pm to 4:45 pm in Room 246 or Room 257.

Directions for the Summer Packet:

- This packet is to be completed and turned in to Mr. Belden at the **beginning** of the first class for fall semester.
- Valid and appropriate work must be shown in the packet or on a separate paper attached to the packet.
- The answer to each problem **must** be easily identified (i.e. circle the answer, make an answer column, or ...)
