

**Exercise**

**Fresh Air**

Water polo is a fun, competitive sport that combines basketball, soccer, wrestling, and football all into one, and it is played in the water! It does not matter if you have been playing for years, or if you have never heard of water polo, everyone is welcome to join! Not only will you learn the rules and strategies of the sport, but you will also meet new people and make new friends in the process. Plus, it is a great way to stay in shape and beat the summer heat!
