3. School Plan for Student Achievement

- Report on level of implementation of current SPSA
 - Mr. Zuniga reviewed the four main goals of the SPSA, specifically highlighting the importance of the intervention/support goals for struggling students. He discussed the Granite Ridge intervention model, which moves students in/out of electives/support classes to meet their needs. He shared the importance of PLCs, common assessments, Professional Development for staff, and the schoolwide focus on MTSS. Mr. Zuniga stated that all of our practices at CNEC are intentional actions, built around the needs of our student and staff community.
 - Mr. Zuniga shared an example of the struggles encountered by Math 1 students, and how it is reflected in our Standardized Test Scores and student GPAs. Student members on the SSC offered that some of their peers don’t see the value of homework and use apps like PhotoMath which leave them lacking full comprehension of the content and unprepared for the assessments. Teachers have responded by adjusting weighted grading categories to encourage independent practice and self-reflection.
- Review of California Dashboard DATA
 - Mr. Zuniga briefly shared the California Dashboard link, which compares CNEC to other schools using a variety of measures.
- Review and approval of budget
 - Mr. Zuniga shared that money is available for Professional Development/Conferences, and shared a spreadsheet showing some of the expenditures this year, which included (but was not limited to) the purchase of technology equipment and program subscriptions.
 - Benton Lewis motioned to approve the budget.
 - The motion was seconded by Monica Morandi and passed unanimously.
