Summer Programs in Math and Science

Boston University's Program in Mathematics for Young Scientists (PROMYS)

A six-week residential program aimed at providing an environment for young people that will arouse their curiosity and encourage a deep personal involvement with the creative elements in mathematics. High school students in grades 9 through 12... Applications available at: www.promys.org Email: promys@bu.edu Phone: (617) 353-2563

Math Camps <http://mathforum.org/students/high/opps.html>

Women in Engineering Program-University of Maryland

One week residential program where young women learn about engineering, meet faculty, current engineering students, and visit labs and facilities. Teacher recommendation and official transcript required, along with an online application. <http://www.wie.umd.edu>

Camp Sea Lab

The Mission of Camp SEA Lab is to provide a unique residential educational experience for youth, their families, and their teachers: one fostering life-long excitement, scientific understanding, and inspiring stewards of today for the oceans of tomorrow. The summer programs are located throughout the Monterey Bay in various locations from Carmel to Santa Cruz, depending upon the camp selected. Residential camps take place on local college campuses, and day camps are held on coastal habitats such as local beaches, wetland, and rocky shores. Phone: (831) 582-3681 Website: <http://campsealab.org/summer-camps/teen-camps.html>

Johns Hopkins University, Center for Talented Youth

(sites in CA, MA, MD, PA, NY) In CTY's Summer Programs, qualifying students can enjoy three fulfilling and fun weeks learning and (in our residential programs) living in the company of other bright young minds. Students take one course during this time in subjects ranging from writing to computer science, history to mathematics. Phone: (410) 735-4100 Email: cityinfo@jhu.edu Website: <http://cty.jhu.edu>

Lawrence Hall of Science Summer Camps

At Lawrence Hall of Science residential summer camps, the mountains, forests, and seashore become exciting places to explore science in ways not possible inside a classroom. As UC Berkeley's science museum and center for K-12 education, LHS knows how to combine the best hands-on, inquiry-based environmental education activities with what students love most about summer camp. Website: <http://www.lawrencehallofscience.org/classes/camps.html>

Roswell Park Cancer Institute (Summer Research Program for High School Students) The program offers summer research experiences to high school students that just completed their junior year. The program prepares student for graduate and undergraduate studies in science. The students will conduct a research project in molecular-cellular biology, genetics, immunology, biophysics, biochemistry, pharmacology, or bioinformatics. Present your research findings at a science conference and poster session. Out-of-town

students stay in a supervised local college dormitory two miles from Roswell Park. Phone: 1-800-ROSWELL (1-800-767-9355), ext. 8134 Website: <http://www.roswellpark.edu>

Stanford University Mathematics Camp (SUMAC)

Brings mathematically talented and motivated high-school students from across the United States, and from around the world, to Stanford University for four weeks of serious mathematical pursuits. Website: <http://math.stanford.edu/sumac/>

Summer Science Program in Astronomy

Operating since 1959, the Summer Science Program (SSP) is designed for academically gifted students interested in astronomy. Originally housed in Ojai, California, the SSP opens a new phase this year with expansion to a second campus at New Mexico Tech at Socorro, New Mexico. Website: <http://www.summerscience.org/home/index.php>

Math Enrichment Services

Math Enrichment Services provides a challenging mathematics curriculum for gifted upper elementary and middle school students in the Metropolitan Washington DC area. We are based in Mclean Virginia and summer courses are available. Website: www.mathreasoning.com

Science Camp Watonka

Science Camp Watonka is a small summer camp in the Poconos offering hands-on science and a complete range of crafts, sports, waterfront, climbing, mini-bikes and trips. Our 40 year history, cabin accommodation, 11 laboratories and staff ratio of 1:3.

The Women in Engineering program at the University of Maryland offers a series of workshops, forums, demonstrations, and discussions that will ignite interest in engineering. Visit their website at

<http://www.eng.umd.edu/wie/dream>

Boston University Research Internship in Science & Engineering

Six-week residential or commuter program in which students conduct scientific research under the guidance of a faculty or mentor. Students must be entering their senior year of high school in Fall 2009.

www.Bu.edu/summer/highschool

See IEA's Apprenticeship Program under Academic Programs (includes programs in Math & Science)

Computer Science and Technology CAMPS

Berkeley Foundation for Opportunities in Information Technology's IT Leadership Program (BFOIT)

BFOIT will offer a two-week program aimed at introducing youth to computer science and the university environment on the UC Berkeley campus. This program focuses on women and members of ethnic groups that are historically underrepresented in the information technology fields.

<http://www.bfoit.org/>

The Tech Summer Camps, The Technological Museum of Innovation

These programs allow kids to experience The Tech in a whole new way. Bringing together high-quality lab facilities, engaging curriculum, and personalized instruction, our camps will create a fun and inspiring way for your kids to deepen their interest in science and technology.

<http://www.thetech.org/summercamps/>

iD Tech Camps

Educators work with students to exercise their creativity while embracing technology as an invaluable tool for life. iD Tech Camps offer cutting-edge, hand on technology education that sparks interest, cultivates learning, and inspires the "internalDrive" in students. <http://www.internaldrive.com/>

CyberCamps

(nationwide) Courses in Animation, Programming, Robotics, and Video Game Design.
<http://www.giantcampus.com/>

NC State University (Engineering Summer Programs)

The College of Engineering at NC State University offers high school students the opportunity to experience engineering, science, and technology at NC State.

Website: <http://www.engr.ncsu.edu/theengineeringplace/summerprograms/high-school/>

Storming Robots

Storming Robots is the only authorized LEGO MINDSTORMS Center on the East of US focusing on robotics education. Storming Robots is also listed as the only summer robotics facility in New Jersey by the NASA Robotics Alliance Project <http://www.stormingrobots.com/prod/summer.html>

Visiontech Camps & Classes

VisionTech Camps is a non-profit technology education provider located in San Ramon, California. We offer high tech accelerated technology based summer camps and after-school enrichment classes to kids ages 6-17, in San Ramon, Danville, Alamo, <http://www.visiontechcamps.com/camps/secondarycamps>

Michigan Tech Youth Programs

Exploration in careers and knowledge for pre-college students Website:
<http://youthprograms.mtu.edu/>

Academic Programs

Cambridge College Summer Programme

Cambridge College programme at Cambridge University, Cambridge, England, 24th Anniversary of summer programmes in Academics and Leadership including an optional trip to Paris. Sixty-five courses, excursions to London, Stonehenge, Warwick Castle, Stratford-upon-Avon, sports and evening activities offered every night. Optional PSAT, SAT, ACT, and Calculus prep. Website: www.cambridgecollegeprogramme.org

NIAHD Pre-Collegiate Summer Program in Early American History

The National Institute of American History and Democracy (NIAHD) is offering a summer program where students can earn college credits and learn early American history on-site through the use of historic places, including surviving structures, archaeology sites, and museums. Students will participate in daily discussion seminars to analyze readings written by acclaimed historians, and will expand their writing skills in online journals as they compare and contrast historic sites with Historians' interpretations. Students will live in a dormitory and experience campus life under the guidance of a large William and Mary Staff. <http://www.wm.edu/as/niahd/?svr=web>

Oxbridge Academic Programs

Programs in Oxford, Cambridge, Paris, Montpellier, and Barcelona offer students currently in grades 9-12 the chance to challenge themselves intellectually, both in traditional disciplines, such as Art History, Literature, Politics and Economics, Drama, Creative Writing, Speech and Debate, as well as less commonly offered subjects, such as Global Medicine, International Law, Business and Finance, Architecture, and Filmmaking. Programs in France and Spain offer language courses at every level. *Scholarships available!*
Phone at New York office: 1-800-828-8349 Email: info@oxbridgeprograms.com
Website: www.oxbridgeprograms.com

University of Virginia's Student Summer Academy

The Student Summer Academy gives students the opportunity to gain inside access to key policy and media experts and discuss and debate current issues with peers from schools nationwide. Students earn college credit from the University of Virginia. <http://curry.virginia.edu/community-programs/student-enrichment/sep/summer> SummerAcademy@closeup.org, 800-256-7387

Summers @ USC

Two-week summer certificate programs and three-week summer seminars are open to entering high school sophomores and juniors. They are a sampler of the best the university has to offer. Students can earn college units, explore one of the world's great cities, and enjoy plentiful cultural and recreational possibilities.

www.usc.edu/summer

Institute for Educational Advancement Apprenticeship Program

IEA is a non-profit organization located in South Pasadena, CA. They host three week and four week apprenticeship program where students have the opportunity to work with mentors and peers on subjects areas they are interested in. During the program, Apprentices spend weekdays working with their mentors on pre-arranged projects, and at the end of the program they are required to present their work to fellow participants and other interested parties. Apprentices live on campus at a local college and IEA staff transport them to and from sites, supervise them, and provide enriching evening and weekend activities. Past program participants rave about their experiences and many have gone on to attend prestigious universities and major in the field of study they explored as an Apprentice. At the end of the apprenticeship, students present projects. This year's Apprenticeship Program features several sites in Southern California and San Francisco including the California Institute of Technology (Caltech), Children's Hospital Los Angeles, Art Center College of Design, and the Los Angeles Superior Court. Scholarships are available.

CSU Summer Arts Program

California State University presents CSU Summer Arts, a multidisciplinary system-wide program offering academic credit plus a festival in the visual, performing, and literary arts.

The academic component offers two-week residency courses for undergraduates, graduates, and professionals in creative writing, dance, music, film, video, theatre, performance, visual arts, design, arts education, and new technology. Scholarships are available. Website: <http://www.csusummerarts.org/>

Pacific Music Camp

University of the Pacific, Conservatory of Music offers Pacific Music Camp. The camp offers a wide variety of ensembles, electives, and social activities for junior and senior high school musicians
